

Enhance Your Water Service with

WATER FILLING STATIONS

Designed for efficiency, sustainability, and style, Crysalli Water Filling Stations deliver chilled, premium still water with the highest standards of convenience and hygiene.

CR-GFS-V1L

The Versatile, High-Capacity Water Solution

The CR-GFS-V1L is the perfect countertop unit for high-volume environments looking to provide filtered still water efficiently. Its compact, durable design is ideal for front-of-house or back-of-house applications in restaurants, coffee shops, and hospitality settings.

Key Features:

- Countertop Design: Saves space while delivering quality water service. Lever activation, self closing pull handle or stay open handle design.
- Ambient Still Filtered Water: Provides a refreshing experience for your customers. Built-in water filter system for fresh clean tasting water. Choose between the 2FC filter (Compact fibredyne cartridge, 1.5 gpm 6,000 gal capacity) or 2FC-P filter (Compact fibredyne cartridge, 1.5 gpm 1,000 gal capacity. Certified PFOA/PFOS and lead-reduction filter).
- Sustainability: Promotes eco-friendly practices by reducing the need for single-use plastic bottles.
- Easy Maintenance: Simplified cleaning and serviceability make this unit user-friendly and efficient.

CR-CPSW-DI

Drop-In Excellence for Compact Spaces

The CR-CPSW-DI offers a sleek, drop-in solution that delivers chilled still water with an emphasis on space-saving efficiency. Ideal for areas with limited floor space, this unit ensures high-quality water is always within reach.

Key Features:

- Space-Saving Design: Plug & play design makes it perfect for smaller environments. Full-Service, server station, application only. Optional SDL lever kit for faucet.
- Chilled Still Water: Always provides cold, refreshing water on demand.
- Efficient Cooling: Enjoy non-mechanical, ice-cooled chilling with a generous 40 lbs ice storage – always ready to serve. Multi-loop passes in the cold plate for the coldest possible water.
- Easy Installation & Maintenance: Simple setup and straightforward upkeep keep operations running smoothly.
- Versatile Applications: Can use open ice bin, self-scooped ice in self-service applications.

CR-CPS-DI & CR-CPS-FS

Ice Cold Sparkling and Still Water in a Plug-n-play, Drop-In or Free-Standing Platform

The CR-CPS-DI and CR-CPS-FS filling stations provide robust solutions for ice-cold operations. Whether you need a countertop drop-in model or a full freestanding unit, these products deliver premium, chilled still water consistently, making them ideal for high-traffic areas.

CR-CPS-DI & CR-CPS-FS Key Features:

- CR-CPS-DI: Compact drop-in design. Fits neatly into countertops for a seamless, integrated look. Optional SDL lever kit for faucet.
- CR-CPS-FS: Freestanding design. Optional SDL lever kit for faucet.
- Sparkling and Chilled Still Filtered Water: Built-in carbonation system for perfect bubbles and CR-24FC water filter system for refreshing hydration. Requires CR-PC160 CO2 Regulator and CR-KIT-CPS install kit.
- Efficient Cooling: Enjoy non-mechanical, ice-cooled chilling with a generous 40 lbs ice storage – always ready to serve. Multi-loop passes in the cold plate for the coldest possible water.
- Hygienic Operation: Designed for easy cleaning and touch-free water dispensing.
